People often ask, "What makes Sangean better than the rest?"

This radio is the answer. Stylish design, clean features and station reception to rival any other. But we took it one step further by making it meet water proofing standards that are equal to marine radios, so that you can dunk it in up to 1 meter of water for 30 minutes and it will still work beautifully! Look, listen, and try for yourself. Uses 2 'D' batteries or an AC power adapter (neither included). Includes. Wall mounting bracket, carrying strap, and double sided adhesive squares by 3M.

H201
